Aubrey Powell, Will Goode	

Notes to Editors:

Zytronic is the developer and manufacturer of a unique range of internationally award-winning touch sensor products.

These products employ an embedded sensing element and are based around either projected capacitive technology ("PCT [™]") or mutual projected capacitive technology (MPCT [™]) sensing. Both technologies were developed and designed to offer significant durability, environmental stability and optical enhancement benefits to system designers of touch interactive, industrial, self-service and public access equipment.

Operating from three modern factories near Newcastle-upon-Tyne in the United Kingdom, Zytronic designs and assembles touch sensors using special glass and plastic materials, in environmentally controlled clean rooms.
