N+1 Singer- Nominated Adviser and Broker 020 7496 3000
Aubrey Powell / Liz Yong / Tom Smale

Notes to Editors

Zytronic is the developer and manufacturer of a unique range of internationally award-winning and patented touch sensor products.

Zytronic touch products employ an embedded sensing solution and are readily configurable to a system designer's specific requirement, offering significant durability, environmental stability and optical enhancement benefits to touch interactivity for industrial, self-service and public access equipment.

During 2012, Zytronic developed new know-how to create mutual projected capacitive technology ("MPCT™") which enables multi-user and multi-touch touch sensing in ultra-large form factor sizes up to 84".

Operating from three modern factories near Newcastle-upon-Tyne in the United Kingdom, Zytronic assembles touch sensors using special glass and plastic materials, in environmentally controlled cleanrooms.
